

### Terrible Scene on Board Ship.

Advices received at Plymouth on Wednesday gave sensational particulars of a mutiny on board the Japanese steamship Saganii Meru during a voyage from Kobe to Yokohama. There were 200 convicts on board, who when the vessel got to sea endeavored to take possession of her and murder the crew. They got on deck and commenced throwing missiles, but the captain ordered the hose to be turned on. The play of water did not demoralize the men, however, but the police bringing their guns to bear, drove them down the hatchway, where they were promptly covered in. After the ship arrived in port it was found that two of the convicts had been killed, four wounded, and that three of the guards had been severely injured by iron bolts.—London Newspaper.

### Strategic Railways.

"Russia is building a strategic railway to the Austrian frontier." You know what a strategic railway is, don't you? Buys its right of ways from the farmers for an annual pass, then gets all the land condemned and takes up the passes, then gets a State grant of two or three counties for the directors, buys its iron on long time, and pays for its grading with construction bonds, then issues equipment bonds to pay for rolling stock, borrows all the money in the country on mortgages, calls in everything outstanding and exchanges it for a deficit, changes its name from the "North and South Air Line" to the "East and West Short Line," divides the swag among the directors and runs the road with the deficit. It may be new in Russia but it's an old thing with us. Country's just full of strategic railways.—Brooklyn Eagle.

The appointment of Rev. Moses A. Hopkins, a colored man and ex-slave, minister to Liberia, reveals President Cleveland as more of a Republican in race liberality than will be pleasing to the average Democrat. It is the first appointment of high importance awarded the colored people of the country during the present administration, and is following in the path marked out by President Hayes when Fred. Douglass was made United States Marshal of the District of Columbia, and closely followed by President Garfield in the appointment of Blanche K. Bruce as Register of the United States Treasury. The only difference is, that while the latter had to deal chiefly with white people, the United States Minister in Liberia meets, as a rule, a large proportion of his own blood in the performance of his duties.—Albuquerque Journal.

The raising of tea in the Mesilla valley may at some time become quite an industry. We were told by Mr. Barncastle that he planted a small patch from which he picked about twelve pounds of a good article, that he not only used in his own family, but sold in his store, the quality being about the same as the average black tea sold over the counters. The Rio Grande valley at this point has a soil that will produce almost anything.—Las Cruces Republican.

An important discovery has just been made on the Colorado desert in finding and relocating the famous "Lost Wilson" mine which was discovered four years ago by one Wilson who was compelled to leave it and go for water, and although efforts have been made time and time again, it has only just been found. It is a mine of horn silver, very rich, and assays from \$15,000 to \$16,000 per ton.—Pomona Progress.

On the 10th of this month a party of Mexican soldiers in Chihuahua came on to a band of hostiles and killed ten and captured several more. Among those captured were two white men who were disguised as Indians. A slow fire would be too good for those fiends.—Tombstone.

Pat Madden was killed by the cars near St. Joseph, Mo.
